The editors of *Microwave* extend their sincere thanks to every reviewer who assessed manuscripts for the journal in 2025. We are pleased to announce that *Microwave*, Volume 1, Issue 2 (September 2025), is now live at <https://www.mdpi.com/3042-5697/1/2>.

Rigorous peer review is the cornerstone of high-quality publishing; thanks to our reviewers, the median time to first decision in 2025 has been 19 days, and every accepted paper meets the journal's standards. To turn gratitude into tangible support, we offer the following:

- (i) A publication discount for prompt, high-quality reports;
- (ii) Downloadable acknowledgement letters accessible through the reviewer's account;
- (iii) Optional, confidentiality-compliant credit via MDPI's partnership with Publons.

Reviewers repeatedly describe their work as voluntary and largely unseen service to the scientific community—we remain acutely aware of, and grateful for, the time and expertise they continue to share.

Regardless of whether the articles they examined were ultimately published, the editors would like to express their appreciation and thank the following reviewers for the time and dedication that they have shown to *Microwave*.
